INTRODUCTION

AUTUMN comes as a reminder to those who wish to enjoy the unrivalled beauty of the many spring flowers that bloom between March and June, that the bulbs from which this wealth of floral beauty emanates, must be planted in the fall.

Although experienced gardeners need no such reminder, there are many whom this catalogue may reach, who are not familiar with the cycle of gardening operations that is essential in order that their gardens may possess these floral treasures, that rival in beauty and form the most brilliant display of the summer gardens, in which annual and perennial flowers predominate.

Each year brings forth its thousands of new enthusiasts who have been completely captivated with the huge size, odd colorings, and exquisite outlines of those wonderful Tulips known as Darwin, Breeder and Cottage varieties; and others who have taken a fancy to the dainty shapes and brilliant cups, or perhaps the majestic boldness of a large trumpet Daffodil.

A visit to the great New York International Flower Show is sufficient proof of the popularity of these flowers, where thousands assemble to view the latest innovations exhibited by private and commercial growers.

We have fulfilled our modest part in helping to popularize them, and each issue of our Autumn catalog is revised to include the latest novelties of proven merit, to meet the demands of those who must have the latest and the best.

Our many years dealing with reputable growers of these bulbs enables us to obtain at all times the best they can produce, both in variety and highest quality, at reasonable prices.

Although we can invariably anticipate our sales with a fair degree of accuracy, many of our stocks become considerably depleted as the planting season advances. For this reason we advise those who desire their orders filled accurately and in full, to order at once, and not wait until the ground is prepared to receive the bulbs.

BURNETT BROTHERS, Inc.

New York, June 15th, 1925.

ATTENTION:

The United States Federal Horticultural Board having passed a law prohibiting the importation of Narcissus and Daffodils after 1925, we strongly advise all lovers of these beautiful spring flowering bulbs to plant liberally this season and naturalize them in their own home gardens.

For Special Offer, See Page Opposite.

The last call—for these bulbous beauties

Narcissus and Daffodils

for Naturalizing

OST of the varieties of these beautiful Spring flowering Bulbs can be naturalized in the home garden, where they will flower and increase year after year.

Below we offer 6 distinct types of this charming race, which are highly recommended for permanent groups in beds or Hardy borders, and for liberal planting in woodlands, meadows, etc., and particularly near the margins of ponds and streams.

NARCISSUS and DAFFODILS

for

NATURALIZING

Tall Shape. In various colors:
Each, 40c; doz., \$4.00
Tye Shape. In various colors:
Each, 45c; doz., \$4.50

Burnett's Giant Darwin Tulips

These wonderful tulips bloom in May after the early tulips, hyacinths and narcissi are over, and continue for from two to three weeks until the peony commences to unfold its petals.

To thoroughly enjoy their great wealth of beauty, and their stateliness, as they carry their giant flowers erect on tall stems, they should be planted in masses of at least 50 of a kind in open beds, or in wide borders close to a hedge, fence, shrubbery or residence, in fact anywhere that affords a background to show off their wonderful shades. They are also extremely effective planted among the perennials in the herbaceous border in colonies of 12 or more bulbs of a kind, where they can be left undisturbed for two or three years. Plant 4 to 5 ins. deep and 6 ins. apart.

	Doz.	100
Anton Roozen. Vivid rosy pink, with white base, marked blue....	\$1.25	\$8.00
Baronne de la Tonnaye. Bright rose margined blush rose, good forcer	.75	5.00

Burnett's Selected Narcissus and Daffodils

SINGLE NARCISSUS

Narcissus, commonly called **daffodils**, are among the best known and most valuable flowers for winter and spring bloom both under glass and out of doors.

The various classes offer splendid material for massing in beds or borders, or for grouping among plants in the herbaceous border as already suggested for late flowering Tulips. They are extremely handsome naturalized in grass in clumps or broken lines, where they will thrive year after year without care or attention.

CHINESE SACRED LILY

"Oriental Narcissus, or Fairy Flower"

Flowers white with yellow cups, produced in bunches of five or six on each stem. They are generally grown in a dish or bowl half filled with pebbles and water, although they do well when grown in pots.

Each, 30c; Doz., \$3.00

USE BONE MEAL FOR ALL BULBS

There is no safer or better fertilizer than BONE MEAL for all spring flowering bulbs. Mix it in your potting compost at rate of 3 lbs. to the bushel, or a handful to a square yard for beds and borders.

Burnett's Fine Ground Bone
5 Lbs., 50c; 10 Lbs., 90c; 100 Lbs., \$4.50.

Note.—See important ruling by the Federal Horticultural Board also our Special Offer of Narcissus for Naturalizing. On "Introductory Page" and Page One.

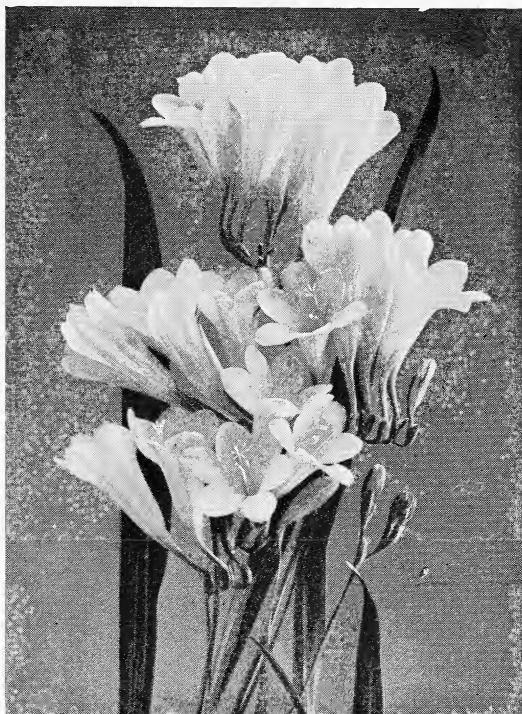

Burnett's Famous Freesias

BURNETT'S PURITY FREESIA

This magnificent, glistening pure snow white Freesia is undoubtedly the finest variety grown and is becoming more popular every year. The flowers are extra large and very fragrant. One bulb will throw from three to five flower spikes, each of which will have eight to eleven buds borne on extra long stiff stems, showing well above the foliage. Spendid for decorating.

Monster Bulbs. Doz., 75c; per 100 \$5.50; per 1,000, \$50.00.

Large Selected Bulbs. Doz., 60c; per 100, \$4.50; per 1,000, \$40.00

FREESIA PURITY
